EARLE & COOK CO.

Twenty million people mutually own the biggest life insurance company in the world. It is The Metropolitan.

One person in every six in the United States and Canada is a holder of a Metropolitan policy-one of the safest forms of investment known to man.

Metropolitan policyholders live longer than other people because The Metropolitan takes care of its policyholders.

At the same time The Metropolitan is working in cooperation with private, public, civic, state and national organizations to improve the health and living conditions of every man, woman and child in the United States and Canada.

1923

Why Metropolitan Policyholders Live Better-

The Metropolitan Agent is a friend to the families he vis-its and helps them in case of sickness. 17,000 Agents visit the homes of 17,-000,000 Industrial Policyholders weekly—telling them of the value of sanitation, fresh air and sunshine Among the useful booklets distribut-ed by the Agents are those telling how to buy food, how to care for food, how to cook food, how to provide wholemoney.

A Company is Great only as it Serves.

The Metropolitan's The Metropolitan's total investment in Canada at the end of 1922 was over \$94,000,000. This amount added to the sum paid to policyholders, and to Canadians for administration ex-penses and taxes since the Metrosince the Metro-politan commenced business in Canada, November, 1885, ex-ceeds by about \$47, 000,000 the amount received by the Company in pre-miums from Cana-dian policyholders.

A CONSERVATION WEEK

In New York State the present week has been proclaimed by Governor Smith as Conservation Week. As there are already 8,000 in-dividual land owners, communities, industrial concerns and other organizations of various his message is not likely to fall on deaf Commissioner MacDonald has touched war. ears. Commissioner MacDonald has toucned the vital points in the conservation question in urging that the people protect, preserve, pro-"Protect our forest from fire and dis-

some land, because forests form the keyst of the conservation arch."

Conservation Week in New York State is largely educational. It would be a good thing need of conservation of forests and wild life is greated and the trouble.

This talk about Alberta coal for Onlario when the coal through the coal particular to the coal to th tronier/investigator and explorer," tells in the Canadian Forestry Magazine of the terrible destruction of wild life in Canada in recent years. When he was first employed by the Government, he says, the buffale were gone but other wild life still abounded. Wild fow but other wild life still abounded. Wild fowl, were to be seen by the millions from the windows of trains crossing the prairie. These were shaughtered by settlers and hunters by the wagonisad. Strawstacks were fired at night and the wild genee attracted by the fames were killed by the hundreds. Sang Mr. Cprwood: "The residy was appalling. To-day at the end of those few years, if you ride from Winnipug, to the montains' on either the Grand pipe, the best of the work of t

coyote. Surely you will not see an antelope. The ponds and lakes once black with wild fowl will occasionally hold a family of ducks, fowl will occasionally hold a family of ducks, or a small flock. There are no wild geese; even prairie chiokens create an unusual interest when they are seen. The greatest breeding grounds that North America has ever known outside of the Arctic tundras, are one

Neither the professional trapper mor the dians are responsible, he says. The settler monans are responsible, no says. The settler and the hunder, together with political stupid-ity and selfish ambition, have been almost en-trely responsible for the ambilitation, just as these same elements have been responsible for our own country." Intelligent laws have not been made, or where made have not been qubeen many or where made have not been en-forced. Mr. Curwood calls for the employments of trached men in the conservation services. Only by placing the work of saving what is left in the hands of those who understand it and are interested in it can the tragedy be stayed.

#### BRITAIN RETRENCHES

Britain's national finances are a contin [3] Bitiain's national finances are a continuing marvel. After the armistice economists and pessimistic predicted certain collapse. They declared that the country's obligations were overpowering, that taxation had broken the public's back, that edilosast expenditures were inescapable, that they nation was heading for min. And yhat has happened? Britain, alone among European nations, is paying every center of her debts. The world owes her more than of her debia. The world owes har more than he owes-the world, but while her creditors cannot pay her she is paying every one of her creditors. As a consequence the British pound sterling, backed by nothing (as Mr. Otto Khan, the great United State bianter pointed out the other day) but the world's belief in the Englishman's hierarchy, and capacity, has regarined its

pre-war status. And now, as a crowning pr of her financial strength, her Chahcellor of the Exchequer announces a surplus for the year which ended Saturday of £101,000,000 (\$500).

At thirty, you want to plant " Protection "; the amount for the minimum costs. The yearly premium on a Whole Life Policy for \$10,000 is only (\$24.25 per thousand) \$242.50.

At forty-being better off-you went to plant "Provision" for the future -something you yourself may enjoy ripely at sixty. At forty the annual premium on a twenty year endowment policy for \$10,000 is \$522.50 (\$52.25 per thousand).

But the "Interchange Privilege" in our whole life policy, at age 30, permits you the choice—at forty—of any one of ne other plans. You will probably elect the retroactive 30 year Endowment of which the Annual Premium is \$412.40, a little less than the original premium on your endowment policy.

This gives you a policy unique with the London Life; carry ing full protection at smell cost—which may be converted into Provision ten years hence with:

1. No indebtedness against the original policy:

ADVANCE UNITEDLY

So much comment has been passed lately at various public gatherings relative to the in-auguration and maintenance of the united front for the progress of Canada that one begins to wonder whether or not, this ideal is taken seriualy by all citizens or whether it will com to fruitition. In Believille, the Rotary and Ki-wanis Clubs, the Chamber of Commerce and various public banquets have declared themselves on this issue and there appears to be no doubt that unity is necessary to weld the nation

The deplorable conditions existent be tween the peoples of the Canadian West and East and the Provinces of Ontario and Quebec, should be bridged at the earliest possible date fare of the Nation

Canada is faced with a formidable array of problems and in their wise and equitable so-lution lies the future of the Dominion. Probably no other Country in the world, all thing considered, has made greater strides in com merce, agriculture and scientific organization Yet it would seem that we have only touche the fringe. We are but in the chrysalis stage of growth. Our poppulation at present is as a pyg

"by compared with the giant, the vast expanses of the Dominion is capable of sustaining.

Our most vital problem is undoubtedly immigration. We are passing through a crucial test and the population of Canada, instead of increasing, is diminishing. The flower of our manhood is crossing the line and such conditions cannot long be endured without serious effect on the conomic structure of the countries.

A steady flow of immigrants is absolut-I steady flow of immigrants is absoluted to expensive the control of the control of the control of the control of the course, that we should fling wide our doors to an unending stream of undestrables, but it does mean that we should make our policies so clastic, that tens of thousands of desirable men and women we need, might be given the opportunity of living in this country and laboring for it

The quality of our immigration will larg determine the quality of the future popula on of Canada, and if it is to be fostered or reg plated in the interests of posterity, and in such manner as will ensure us a steady flow of de-sirable stock, the task must be undertaken by our legislators with vigor and without preju-

that they must build for unity.

Yesterday it was reported that thousands of the stations in English. Later on, the inter-of-western farmers were formaking their farms resulting coperiment might be tried in this cause limited the way to prompting to the later of th United States, where employment conditions were more favorable. The uncertainty of crops for the last two seasons in the West-was their excuse for this emigration and many of them intend to take up their occupa

many of them intend to take but, near occupa-tion-in the Western Pacific Coast cities, where a building boom is now in progress. This leak-age is indeed deplorable and should be plug-ged, if possible. The incoming immigrants at the present rate of speed will not supplant the outgo of emigrants.. These people cannot be blamed for their attitude towards Canada on account of their own misfortunes, but they account of their own mistortunes, but they should bear in mind that the pioneers of Can-ada suffered, and we are by no means out of the pioneer stage. We have still to march down the veiley of strift, and up the hill of agony and it is to be hoped, will emerge into light of a better understanding.

Some of us are possessed of the hope of this better understanding and clearer vision ns petter understanding and clearer vision pd a desire to do those things which will be and a desire to do those things which will ner of mutual benefit. Will to-morrow see the real-ization of these hopes? Will East and West emerge from the present missme of misunder-re-ling-size the light? Will Ontario, and Quebec come out of the darkness of political

and religious dominance, into the calcium of reason, helpfulness and tolerance? We must rid ourselves of that spirit of sel-

We must rid ourselves of that spirit of self-siness. It is blinding our country to the needs of all sections. There should be no such thing in this country as a "much favored industry." Never in the history of this country has there been as how where unity is needed so Borely. Mightly problems confront us and we cannot expect to aurmount them unless we put forth a united front. Public opinion will certainly re-second to mulous ideals.

MA the means so inadequate, the officials employ-ed by the Immigration Department are mak-ing matters worse by applying restrictive reg-ulations offensively and making things as un-pleasant as possible for the newcomer, so that the country cannot make the most of even the the cauntry cannot make the most of even the poor chance that is left to it by a hesitating and pleemeal policy. What effect will the repor of these ninety Swiss farmers have upon the remainder of the twenty thousand? Unquestionably it will be unfavorable and damaging.

There is no room for doubt as to the nature and source of the influence which is behind an administrative attitude of this kind. The Government is held down and its actions, such as they are, directed by the hand of organized labor. Organized down does not want invalid. Organized labor does not want imm gration; its spokesman have made that abund-antly clear, and the public need not look for an immigration policy worthy of the name so long as the Government submits, as heretofore respect it has submitted, to the domin ation of organized labor, and of its representaof pro-labor agents in the departmental service.
This influence must be swept aside and these agents removed if the country is to get any where in what is to-day the most important field of public administration. The excuse for the interference of organized labor—if it ever existed does not exist now. The plea that im-

But this is a trying time on the nervous system. Is the daughter's health in suitable condition in order that she may assume the cares and responsibilities of married life.

She has a responsibility to her partner in life, as well as her own

future welfare and happiness to

Most mothers are familiar with the splendid restorative and upbuild-ing influence of Dr. Chase's Nerve Food, and see that their daughters have the benefit of this treatment when they get tired, nervous and rundown in health.

The nerve food is so natural and gentle in action and so thoroughly dependable as a reconstructive agent that it has come to be looked upon as a necessity in most homes.

Particularly at this season of the year we all seem to need the help of a tonic treatment to enrich the blood and build up the nervous system.

#### School Girls, Too

After months of nervous strain at study and examinations school girls need just such assistance as Dr. Chase's Nerve Food can give them, in order to maintain health and strength.

# For Interior Decoration

For the walls and ceilings of any room in your house, most delicate and harmonious effects can be secured by the use of NEU-TONE. It is cheaper and more sanitary than wall paper and will last much longer because it can be washed without injury. It positively will not rub off. TONE is made in eighteen shades, and by the use of various tints pleasing combinations may be secured.

#### MARTIN-SENOUR PAINTS AND VARNISHES

NEU-TONE is easy to apply. It covers well and leaver so brush marks, producing a dull, soft, velvety finish which will lend charm to any room

Any surface may be successfully treated with NKH-TONE-Plaster, wood, burlap or metal.

# Pure Whole Milk

WHEN you buy Carnation Milk you are sure of its purity. It is pure, fresh milk, with about 60% of the water removed by evaporation, hermetically sealed and sterilized before it is sent to you. Thus absolute safety is coupled with real convenience and economy for Carnation Milk can be used in place of Cream, and with a little more than an equal part of water added is "whole" milk. And it keeps. Order fromyour grocer several tall (16 oz.) cans or a case of 48 cans.-

Try this recipe and write for the free Carnation Cook Book.

#### TUESDAY, APRIL 10, 1923 A CLOSED SEASON FOR CHEESE CO-OPERATIVES

spite the advance press notices to th contrary, to the dictation of the co-oper-ative proletariat and to the various theanys proletariat and to the various the-ories and policies of the Ontario Co-operative Company and the United Dairymen's Co-oper-ative Co., Campbellford, still posseques a Cheese Board and the members will be doing business in the same old stand, on April 28th next. This was the decision reached at a special meeting of the Board held on Saturday at

Just why the factories represented there on Saturday have the audacity to circumvent and ignore Mr. H. B. Cowan's statement that they were linked up with his organization, will doubtless prove a bombshell to that gentieman Nevertheless the positively dangerous and unfair methods of selling cheese through the lo-cal boards seems to have been satisfactory to those up Campbellford way. There has been discount on their cheese cheques in the past, ler the present system, and as the evidence of improvement if cheese were handled co-op-eratively, was not wholly conclusive, that the financial benefit was entirely for the dairyme mselves, it has evidently been decided to nd by the ship. Belleville Cheese Board will do the same, so will Stirling, Madoc and Pic-

The advance agents' stories of the tremen dous possibilities relative to the co-operative marketing of cheese, were somewhat impugned as blased by admiration for the high priests of the movement. # Make a Room Like This Yourself

F you have a room that needs decorating, a ceiling to be repaired, or a new room to be made out of unused space, you can make stunning effects by using Bird's Combination Wall Board, the only board of its kind. It is oak grained on one side, cream white on the reverse side.

Takes paint wonderfully well in case you wish to paint it; but it needs no painting or other decoration because of its beautiful finish.

Think how many places there are in your home where Bird's Wall Board can be used to advantage. Then come in and let us tell you how little it costs.

# for safeguarding the HEALTH of the Family

one turns naturally to ENO'S "Fruit Salt" —the famous giver of health and happiness from the old "mother country." ENO has been the family's regulator of health for over half-a-century-it is so pure, so carefully pre-pared, so pleasant to drink, that it agrees with the most delicate constitution.

the most delicate constitution.

As a safeguard against those digestive ailments which often beset us—as a blood purifier—as a gentle corrective for liver troubles—as an invaduable agent for the treatment of rheumatic conditions—as a refreshing thirst-quencher—ENO is unequalled. There is no household that is not healthier and happier for the morning elsevier.

Be PARIS-GOWNED at LOW COST!

A "Dress by McMullen" -so chic, so smartand the cost so very reasonable!

BEFORE a single McMullen model was conceived, the designers studied advanced styles and tendencies—in Paris, New York, on the Riviera, at Palm Beach and Coronado—wherever the world's smartnest women congregate.

With the one object, that YOU may this spring and summer wear wondrously lovely and exclusive designs in the newest silk and sports fabrics, of rare shades and colour blendings.

Impossible to give detailed description of the many McMullen creations—so varied, so modishly original, so finely fushioned and finished. Really, you must see for yourself t

And because no other Canadian maker can afford to buy such enormous supplies of imported silks and raw materials, you will find the prices a pleasant surprise.

The ONE frock, made for YOU, adapted to your figure, your taste, per-sonality and pocket-book, awaits your inspection. See the McMULLEN Dresses at the store which advertises them in your local papers.

Can Blowouts Be Prevented?

Firestone blending of the different varieties of subber assures the combination best adapted to tread, sidewall and the other elements of the tire.

Tempering, as carried on by Firestons has an effect on the crude rubber com-parable to the heat treating of steel. Firestone air bag cure provides equal tension on the cords by placing them in smooth parallel lines and accurately drawing them into a position where they

are sulcinited into a permanenth balanced tire mechanism. These are the tested methods that in Canada's newest and most modern the plan are giving car owners a product whose value is a challenge to quality the builders everywhere.

Each month this year has marked a steadily increasing demand for Pirestone Cords that has already necessitated manufacturing in double shifts. Equip all tour wheels with Fireston

Canadian, American and French Relationships With Eng-land Are Discussed, and Vivid Descriptions of Coun-try, Its History and Notable Functions Given

"With the same grim determination as was exhibited dur ing the blackest days of the Great War, England will now pur-sue a lasting peace." This proved to be one of the most out-standing of the many interesting and noteworthy statements istanding of the many interesting and notoworthy statements made by the Honorable Canon Cody, when he addressed the members of the Belleville Club Here last night. Other important statements also evolved from his wonderfully interesting and educative address on the subject. "A Canadian in England." Indeed the Ruhr attaclon was touched uon, the relationship of the Company of the tions of the United States with England were also touched up-on, and the ropeal of the embarge on Canadian cattle was dis-

cussed.

The Belleville Club rooms were crowded for the address, and everyone present voted the evening one of the most profitable evenings ever spent in the rooms. Canon Gody knows Belleville well, and has visited this city, according to his own DEPUTATION GOES

# GUARANTEED!

The New Oakland Touring Car

In making any investment you naturally seek the one carrying a guarantee. That should especially guide the selection of a new car: Is it guaranteed and what does the guarantee stand for anyway? That is what the prospective purchaser wants to know.

No such guarantee for a light six has ever been given as for

15,000 MILES

We have been making NOTHING BUT LIGHT SIXES for the last ten years
—THAT IS WHY WE CAN OFFER SUCH A GUARANTEE.

AND THE "LIGHT SIX" IS THE CAR YOU WILL ULTIMATELY BUY!

If you have reached the stage where you want to buy a closed car offering all the comforts, the speed, the durability of the very high priced coupe, coach or sedan, but at a moderate cost, we have just the car you have been looking for, and remember, IT IS A SIX, not a four.

If you have driven a six you know what that means.

#### NO TRANQUILITY.

It is the irony of fate that the Bonar Law administration, which was elected on the alo-gan of "tranquility," should be encounting the roughest political passage in recent parlia-mentary history, comments the Hamilton Spec-tator, and it is true at that. Honorable mem-

and "transpositive," should be encountering the roughest political passage in recent parallithough and to three at that it may be a seen as the property of the present government of the present government as it was with the policy of "falses-falry" of the present government as it was with the present government and the government gov dering his imprisonment for a year. The hos-tile criticism of the action was due to the feeling that the procedure was contrary to the spirit of established law, that the Legislative Assembly acted at once as accuser and judge Assembly acted at once as accuser and judge, and that Roberts was 'deprived on his liberty by process other than "the lawful judgment of his peers and by the law of the land," pre-sumed to be secured wherever English law has force by the oldest of charters. The release will serve to stop the agitation that had been started, says the Montreal Gazette. It also suggests that on the part of those responsible in chief part for the administration of justice, the thought that comes after action taken in haste or in anger will ensure that there will be no repetition of the happening, and that libellers of legislators will be dealt with by the courts under the law, which provides adeq punishment for their offences,

# LDSMOBILE

## Leads the Way in Motor Car Value

YOU are going to buy a new car; You have decided to spend about \$2,000; the question naturally arises:-

"Where will I get the most for my money?"

The answer is the Oldsmobile Light Eight. What other car at the price can offer you such superb equipment

Bumper-Shock absorbers-Transmission lock - Power tire pump -Windshield wiper - Radiometer -Drum type head lamps-Cowl lamps -Stop light-Tonneau lamps-Cowl ventilator - Genuine Pantisote top (hand tailored)—Door opening curtains, genuine leather upholstery, mahogany instrument board, recessed for instruments.

Only the Oldsmobile Light Eight can. give you multiple-cylinder performance (63 H.P.) combined with six-cylinder economy, at such a modest price. The Oldsmobile is selling to-day at the lowest prices in eighteen years.

Before you buy your car-come in, let us show you the new Oldsmobile Light Eight—ride in it—drive it—compare it with any other car at it's price. Then you will realize that Oldsmobile leads the way in Motor Car value.

Beauty culture begins in childhood. The carly years of the child's life are none too soon to begin to look for winkles and frowns. All wrinkles are not caused by age or worry, as most people believe, but far too often by Eyestrein

strain.

Wrinkles are not desirable, so naturally we will go a long way to remove them. Much better to prevent them. Often righting of a child's eyes would save many a wrinkle in after life.

after life.

A thorough examination by our Optometrist is interesting, not expensive, not at all unpleasant, and positively second to none in Canada.

# Dodge Brothers TYPE - A SEDAN

Its dependability is taken for granted—its economy of operation is proverbial.

This beauty is not a superficial thing. It goes much deeper than mere external

Like all creations of genuine excellence, it emanates from the honest value which Dodge Brothers have built into the car.

You seems it in the depth and comfort of the seats—richly upholtered in genuine mohal velvet. It makes itself known the instant you close the doors—which snap solidly shut, like the doors of a safe. It emanates unmistakably from every line and curve of the sturdy body.

It becomes most evident when you discover that in smart company, where a car of less distinction would appear at its worst, Dodge Brothers Type-A Sedan appears at its best.

## KOOTENAY An old range may waste more than a new Kootenay costs

VERY woman knows how dreadful an old range with a poor oven can be. How much coal it wastes! How often it ruins good food!

It is really an economy to have a modern Kootenay with its white nickeled steel oven (washable) and its smooth glistening exterior.

Easy to care for, easy to clean,-a sure baker! It's a comfort every day—a range you would certainly be proud of and enjoy.

TO bring the Canadian farm home up to the standard of modern living conditions

water under pressure is of first consideration. With this fea-ture, comforts and conveniences are possible that will make your home in the country attractive to the family, and they will enloy their dwelling place beyond that of any other spot on earth. It is essentially a time and ishor-saving device.

Empire "DURO" Electric Water Systems, operated by electricity from Farm Lighting Plants, furnish the equivalent of "City Water Pressure"—are commical, durable, and when measured by the service they render, inexponsive. The engine driven "DURO" Water Systems furnish practically the same service as the electric outlib, except they are automatic in stopping only.

You can afford a "DURO" System because it is com-plete, no extras to buy, extremely simple to install. We can make the necessary pipe connections in a short time, and be-yond an occasional inspection and a little oil twice a year, re-quires no care whatever.

Your knowledge of farm machinery will tell you at a glance that the "DURO" has no complicated parts to get out of order. You can have water in the kitchen, sush house, bath room, toilet, in the yard, barnyard and stables. No buckbath to be the part of a fauct.

The need for a water supply exists everywhere—thousands of "DURO" Water Systems are now in use over a wide terri or "DURO" water Systems are now in use over a wind terri or "Bully describing just what your particular requirements are; we will tell you which "DURO" is best suited for your purpose without obligation to buy.

Many factories and shops have installed the "DURO" to supply their employees with drinking water pumped fresh from their own wells, a distinct advantage over stale water that

### THE CURTAIN WILL SOON DROP

The difficulty of Premier Drury's task to enforce electoral reforms based upon his own dictorial ideas, was heightened by one of the most outstanding efforts of a determined op-position, witnessed in the Legislative Chamber for many sessions. The absurdity of the delay is bringing down these bills was too evident in bringing down these bills we defined to be lightly passed over and the Concervative dis-hard Anti-Unionist Preshyerians will make group in the Rouse standing trucked to go licitie as they do ever the "federal union" medianto the committee on supply as long as the measures confronted them.

These conflicting factors of provincial politics will doubtless be taken into consideration when the people exercise their franchise in tion when the people exercise their francise in June and they will not forget the continued ef-forts of a determined Conservative opposition which has tried its utmost during the past four years of a riotous regime, to keep the finances of the Province of Ontario within reasonable

A complete surrender, such as was Mr. Drury's lot, is rather humble pie to eat at one aitting. Col. J. A. Currie, in speaking for ten hours assisted, of course in cramming such dehours assisted, of course in cramming such de-licious dessert, down the Premier's throat. There was no piecemeal withdrawals until the dinner table was evacuated and the U.F.O. ad-ministration decided that an immediate appeal

moner kable was executed and the U.F.O. and lymns, as in everything the, is liable to change, ministration decided that an immediate appeal would be made to the people.

The valuable service which they have rendered to the clitzens of the Province of Ontario in the terrific increase of the public debt, and the rubbless expenditure per road mile in highway construction, a storounding and increatible. This conduct has made the cyar of the province of the control of the

If he's returned with the largest group then he'll overlook our ingratitude in not giving his Government an extension and try to carry on, but if the electors ahould be so thoughtless as to send him back with only two or three supporters, then he'll absolutely refuse to remain in office. We'll simply get our deserts.

ell, we'll have to be careful. And the well, we'll nave to be careful. And the riding of Halton especially. For who knows but that Mr. Drury, if he found himself de-feated in his own seat, might get mad and de-cline to sit for at?

### AUTO KILLER IS MURDERER

For the first time, conviction of murder has been recorded in the United States in the case of killing by automobile accident. In Phila-delphia a man has been sentenced to serve from six to ten years in prison. He drove his car into three persons alighting from a street car, killing them. He was drunk at the time

land remembers nothing of the affair, but,

ided guilty.

The conviction is the more significant in the fact that the man who enters prison as a murderer is a millionaire society leader.

A precedent has been set. The force of suggestion is powerful. Other such convictions an experienced wife is of the such convictions and suppressed wife is of the such including the such as a sultary of fact of reckless driving.

Smartness in looks, and thoroughness and modern design in a low priced car was unheard of until the Star was created by W. C. Durant, the pioneer builder of automobiles.

The Star car marks the most advanced step since the introduction of the automobile, for it provides for the first time a quality automobile, standardized in construction and operation for a modest sum of money.

# The Ford Has Passed

IN ten years the Ford Car has passed the street car, the horse and buggy and

the horse and buggy and the locomotive as a means of transportation

The Ford has given the public transportation which combines all the advantages which other methods offer with none of their disad-

vantages.

It is giving the railroads real competition in fast cross-country transportation.
It has ousted the street

ear in ready convenience and low mileage costs.
It has pushed the horse and buggy completely into

and low maintenance costs. The number of people who buy Ford cars will set the price of Ford cars.

# The Four Touring The Lowest Oldsmobile Price in Eighteen Years

A LTHOUGH to-day Oldsmobile quality A and performance are higher than even former Oldsmobile standards, the prices are now lower than they have been for the past eighteen years.

For a car of practical utility and distinctive appearance, no car at the price can compare with the Oldsmobile Four Touring, To fully appreciate the quality of the Four Touring you must see it for yourself—examine its appointments—ride in it—drive it.

But some conception of its unusual value may be obtained by glancing through this list of equipment:-

Drum head and cowl lamps, high-grade uphol-stery, walnut steering wheel and walnut finish instrument board, windshield wiper,

FOR home-made candies, as for cooking and drinking, Carnation Milk is unsurpassed. Used in your own recipes or in the recipes given in the Carnation Cook Book, its results are sure because it is pure and rich. It is pure whole cows' milk with about 60% of the water removed by evaporation, then sterilized in air-tight containers. Order it from your grocer -several tall (16 oz.) cans or a case of 48 cans.

Try this recipe and write for the free Carnation Cook Book.

# Science reduces the TIM and cost of preparing meals

FROM the very inception of the Electric Range Industry, the best Engineering brains have concentrated on the production of protected Elements.

So far there has been created only one which has stood the test of time, and which is sold with the full assurance by its 'makers that it will give highly satisfactory service. That one is McClary's Protected Element.

The chief advantage of a Protected Element is obviously it makes the cooking top of an Electric Range practical But in protecting the Element, several other important attentions are gained, which makes the Protected Element supreme from every standpoint—including speed.

ORDINARY UTENSILS

Any kind of Cooking Utensils may be used on McClary's Protected Element.

McClary \* Frotected Element is the only one on which you can get satisfactory cooking results by the use of the wide range of cooking utensits usually found in the home. No other element can do this.

Is Your Boy Glad You Are His Dad?

Is your son proud of you? Or does he wish Wally Lawson's father was his father?

FREE ILLUSTRATED LECTURE THE BELLEVILLE HORTICULTURAL SOCIETY City Hall, April 30th, 8 p.m.

Wally says his father is the best in the world. To prove it, he shows your boy the peach of a new C. C. M. Bicycle his dad bought him.

Sticks Up For You

Your boy stouth sticks up for you. But deep down in his heart, be's wondering if Wally Lawson's father doesn't think more of Wally than you do of him. He can't even get you to talk shout buying him a sleeple. You put him off from day to day. And he feels it, though ho may got any much.

He's a Good Boy, Dad

He's doing well at school. You're proud of him, even though you don't tell him so. Maybehe's joined the Boy Scouts.
That means wonderful trips to the country, and all sorts of thrilling and boylah sports, if he has a bicycle. A Boy Scout and a bleycle are as inseparable as a cowboy and his pinto pony.

## W. H. IRELAND M.P.P. AGAIN RECEIVES LIBERAL-CONSERVATIVE NOMINATION

Popular Member for West Hastings Unanimously Chosen
As Party Candidate at Convention Held at Frankford
and Will Contest Riding at Coming Elections

REPRESENTATIVE ATTENDANCE OF DELEGATES

Meeting Was Brimful of Optimistic Enthusiasm For S the Candidate, E. G. Porter, K.C., M.P., and Other

With an emphatically positive attitude, the Liberal-Conservatives of the riding of West-Hastings, at the convention held in the Palace Theatre in the village of Frankford yester day afternoon, tendered to W. H. Ireland, M.P.P., of Trenton the present sitting member, the party nomination for the On tario Legislature and he will be their standard bearer at the coming Provincial elections.

There was no deadlock or indecision in the matter

when Albert Ketcheson and Parker Consaul of Frankford, moved and seconded the nomination of Mr. Ireland, there was not a dissenting voice. The delegates immediately cheered the suggestion to an echo, and it was all over in a few minutes No other names were brought before the meeting and the extreme popularity of Mr. Ireland was amply demonstrated by the continued applause which followed his nomination, for several minutes

Clem H. Ketcheson, one of the old Conservative stalwart of the riding occupied the chair, upon the motion of H. F. ketcheson of this City, and when he called the meeting to order at 2-30 p.m., there was a full complement of over 200 delegates present from Belleville, Trenton, Frankford and Sidne Township.

LIBERAL-CONSERVATIVE

### SUGAR PRICES

The high price of sugar is at present world There are complaints about it, and jokes about it, in France. In England it has been thrust into the debate on the budget, the demand of the Labor Party being that the duty on sugar be reduced. In refusing to reduce it the Chancellor of the Exchequer gave it as it the Chancellor of the Exchequer gave it as in black left at the extraordinary rise. In the price of augar is due to the prospect of a short-age in the supply. After referring to the disappointing Cuban crop, he said that the production of beet sugars in Europe was certain; to be atimulated by the high price, so that by the high price, so that by the company of the production of the pr This sounds like a rational explanation

But whatever the British Government may think about, the United States Government, ac-cording to New York papers, knows better. It holds that the high price of sugar is due to excessive and wicked speculation on the New York Coffee and Sugar Exchange and the New orle Coffee and Sugas Clearing Association and has accordingly filed a bill in equity praying that a permanent injunction against trans actions in sugar by either of those organizations shall be issued. In support of its application to the court the U.S. Government maintains that most of the dealings on the sugar exchanges are purely specificative, the actual delivery of sugar on feture contracts being so grant as to negligible. ### NEAR EAST CONFERENCE

The next, and we hope the penultimate, towards peace with Turkey has been taken at the resumed Near Eastern peace coonference, when the representatives of Britain, France and Italy meet the Turkish delegates to clear up the problems left unsettled, chiefly economic and financial, from the last conference. It is becoming clearer that the Turks want peace, and ere should not be, according to Lord Curzon's latest pronouncement, any insuperable difficulties in the way of an accommodation which, while it will satisfy Turkish national aspirations, will not stultify the Allied Powers in their efforts to secure an equitable and an enduring peace in the Near East. An outstanding feature in regard to the conference is the elimin-ation of Soviet Russia from the meetings, and quite naturally, considering that at a former or n conference the Soviet delegates publicly refused to sign a treaty even when unanimity pre ed to sign a treaty even when unanimity prevalled amongst the "other nations. Turks cannot yet be tried before the form containing the contraction of the contrac reason to suppose that the Allies will have the courage to resist, even though rumors are current that foreign business houses are closing down in Constantinople, afraid to trust the Turkish courts. When the Turks defeated the Greeks they thought, foolishly, they had beat en Europe, although they have discovered since that all Europe is afraid of them, so that they that all Europe is afraid of them, so that they can sciencely be blamed if they try to make Europe pay. By their obduracy, the Turks have ascrificed amazingly generous and favorable terms, in this case, and the second terms are the second to the second terms and the second terms are the second terms ar

# Well-Dressed Women Will Wear McMULLEN Dresses

-prices asked are so very reasonable!

PARIS creates clothes ideas, and upon these McMullen relies for the exquisite smartness of all frocks and sports dresses bearing his label—a Silver Swan on Turquoise-Blue background.

But this smartness depends upon the lovely texture, the beauty and lasting quality of the silk fabrics just as much as upon the styling of the many pretty models.

The silk and fabrics, all the materials and fine workmanship that McMullen puts into a frock or dress for sports or afternoon wear are rarely found in any but the most expensive gaments—each a thing of beauty exquisitely made.

And yet all this refreshing newness of design, these winsome materials and colour blendings of rare beauty are combined into the Parisian chic of a McMunLen model at a price within the reach of all!

See the McMullen Dresses at the store which advertises them in your local papers.

### A QUALIFIED LEADER

What is everybody's business is very often no person's particular interest, but this though wai not manifested at Griffin's Opera House helfs hight, when a capacity house greeted Hon. G. Howard Ferguson, K.C., M.L.A., leader of the Liberal-Conservative party in the Province of Ontario, and other eminent speakers. An epidemic of dissatiateation has spread throughout Outario. The unsatisfactory ad-ministration of the United Farmers has caused mightartation of the United Farmers has caused

any political sympathy which may have been ted towards them, to be smothered by the snows of despondency and discontent. The tactics of these bush league minor statesme has disturbed the deep sea tranquility of the electors of the Province and now the surface the is beginning to ripple, with the result that On-tario will be allowed to drift no longer with such irresponsible, incapable and unqualified ers at the helm.

Hon. Mr. Ferguson's explicit propounding of the weaknesses of the Drury regime was a n to many who attended and astounding to all. His stinging arraignments of those who have so persistently cluded his prying eyes will cause many of the staunch followers of U.F.Q. principles to quickly grow tired of its charms. The stern realities of modern politgovernment constitute a good dose for se who are afflicted with a sort of nonchalant, carefree disinterestedness of the welfare of the country and the fling which Hon. Mr. Ferguson took at the gay dreamers and political fantasies of Drurylsm cannot fail to impress the doubtful that their attempts at Constitutional int have not vindicated their election wer four years ago.

With such terrible onslaught emanating from all sides it begins to look as if the U.F.O. sun has set. Morrison gathered in the sheaves when he brought Drury back into port at Tor-onto on Thursday and he is now safely-tied to his moorings at the U.F.O. dock. The olive his moorings at the U.F.O. dock. The olive branch which the Liberals extended has been flatly rejected. Another case of the Liberal party practicing that which they do not preach. Ontario needs no more such kinderons as has been her diet recently and It is confidently expected that Hon, G. H ard Ferguson will be the new political teacher and parliamentarly leader of the Province of

and parliamentarly leader of the Province of Chatch. He is amply qualified for the post.

Oldsmobile Brougham is the most complete car of its price and type

Here's the proof—Let's talk facts. You owe it to yourself to check each competi-tive car point by point before you decide.

All Steef Covered Body. No composition panels to warp and deteriorate rapid-ly. The Brougham is standard closed car construction—steel panels from floor to rook.

Front Seats are Pullman Type Chairs. The backs are non-folding. The two who ride in front are as comfortable as the three on the rear seat.

Luggage Should be Under Cover. The locked luggage compartment under the care deck is just right for a travelling bog and several parcels.

Headlights that spell Safety. These headlights are brilliant and powerful, yet legal in every province. The anti-plate corrugations in the reflectors make lenses and Visors obsolets. A distinctive Oldmobile feature.

Match this Equipment. Heater, door locks, cowl ventilator, sun visor, wind, shield wiper, high-grade upholstery, sain silvered hardware, cowl lamps, nickeled radiator, one-piece crown fenders, transmission lock, dome light, window lifters and shades, walnut steering wheel and walnut finished instru-

Chassic Endorsed by General Motors. Built by Oldsmobile and approved by General Motors—a double assurance of high quality—the Brougham Four chazs is famous for its conomy and endurance records. This means that a man whether he be a farmer, manufacturer or other producer, can buy Ford Equipment at a greatly reduced price while he receives a healthy increase for his products over 1914 prices.

This is in face of the fact that the tendency of prices on all commodities is to increase.

Therefore, the present prices of Ford Cars, which are the lowest in the history of the company, cannot be guaranteed.

The only way you can make sure of them is to Buy Now. Terms if you wish.

The New Superior Chevrolet

FIVE PASSENGER TOURING MODEL

The New Chevrolet has 66 New Changes over 1922

The Chevrolet is built for "Economical Transportation and delivers it. It is the world's lowest priced, fully equipped automobile. It is the most economical car in the world in upkeep and operation costs.

The New SUPERIOR Touring embodies very fully the characteristican qualities which have won for Chevrolet its present proud position. It is in every sense a complete car, having everything required for the comfort and convenience of driver or owner—equal in equipment to cars selling at a very much higher price.

The streamline design with high radiator and cowl gives the car that long, low speedy appearance so much desired by motorists to-day.

Mechanical features, such at spiral bevel geaf rear axie, vacuum feed, Remy ignition, Remy or Autolite starter and generator, selective ps sliding gear transmission, honeycomb radiator with water pump and fan, semi floating rear axie, new departure axie bearings, demountable rims, etc. Side curtains open with the doors.

### TAXATION IN CANADA-

Manitoba has introduced a provincial income tax providing for a tax ranging from one
per cent on taxable incomes of \$1,000 to seven

# ou Need a Bicycle

FROM early morn till late at night the bicycle plays an important part in our daily life.

It does its work so quietly, so smoothly, so efficiently, we scarcely realize its presence.

Ride to Work

Mide to Work

Throng's of workmen cycle to and from work every day, saving time, car fare and the discomfort of riding in packed street cars or of walking long distances.

waiking long distances.

Multitudes of happy children — teachers, too-ride bicycles to school. And what in the world would the Boy Scouts do without bicycles?

**Economical Deliveries** 

All days long messenger boys—and boys making light deliveries—flit by on bicycles. Occasionally a plumber pedals by on his wheel on a hurry call—perhaps, a leaking

A carpenter with his kit wheels from one job to another. The collector and the insurance agent glids along to make calls—many of them not near a car line.

Pleasure and Emergencies

I leasure and Emergencies
Out in the country, the city man rides for a day's
fishing with his rod tied on his wheel. Coming towards him a farmer's boy wheels hurriedly to the city
to get a spare part for a farm machine that has broken
down.

NA. Away down in California, Mary Pickford and uglas Fairbanks ride bicycles for pleasure and to pft. An example that other men and women could low with benefit to their health.

More People Riding less Tubing, strongly re-inforced.

Look at the brilliant, has-trom cnmel—durable and lasting. And the glistening nickel. It's done over cop-per so it won't rest.

ONFIDENCE of Canadian newspaper readers in The Mail and Empire is proven by its dominating circulation—larger than any other morning paper in Canada-with only one edition-vouched for by the Audit Bureau of Circulations.

Mail and Empire steady consistent growth further proves reader con-fidence; in twenty-two years it has increased in circulation from 36,624 to 102,337. In the first 14 years of that period, it doubled. That proportion of growth has been steadily maintained throughout.
